Press Release

"Healthy Neighborhoods May Be Coming To Your Neighborhood"

March 23, 2010

The Healthy Neighborhoods Program of the Clinton County Health Department will be conducting Health and Safety surveys throughout the Town of Mooers during the months of April, May and June. These brief in-home surveys are designed to identify health and safety concerns. After completion of the survey and based on the needs of the home, safety products such as fire extinguishers, carbon monoxide detectors, smoke detectors, first aid kits, water bottles, flashlights, child safety products, and allergen barrier mattress and pillow covers, may be provided by the Healthy Neighborhoods Program to eligible families.

During the home visit, education is provided regarding fire and burn safety, carbon monoxide poisoning prevention, prevention of lead poisoning, asthma, injury prevention and many other health and safety topics. Information and referrals are also provided regarding available community resources for which a family may be eligible for. Participation in the Healthy Neighborhoods Program is FREE for all Clinton County Residents! Don't miss this opportunity to participate!

If you would like more information about Healthy Neighborhoods, have questions, or would like to schedule an appointment, please contact Healthy Neighborhoods at (518) 565-4993, www.clintonhealth.org.
