FREE Developmental Screenings For Your Child

The Clinton County Health Department offers developmental screenings for children under 3.

- No cost to families
- No appointment needed
- Friendly, trained screeners
- Standardized Screening Tool

Young children learn and develop differently. One child might walk earlier than another while another child may talk first. Often these differences will even out.

A screening offers you an opportunity to find out if your child is on the right developmental track.

All Screenings take place at the Clinton County Health Department
133 Margaret Street
No appointment necessary.

Visit us between 1:30 – 3:30 pm.
