INTRODUCTION

The Clinton County Health Department (CCHD) oversees the permitting and inspection of over 400 food service establishments (FSE's) in Clinton County to ensure compliance with the New York State Sanitary Code. FSE inspections are completed once or twice yearly for most restaurants, with the number of inspections completed determined by the number and complexity of the menu items for that facility. Inspections for small/limited food item restaurants and/or vendors are typically completed at least once every other year.

During inspections, CCHD staff complete a visual inspection of all facility components, (i.e., kitchen, eating area, bathrooms, food storage areas, and complete evaluation of food worker practices, including the manner in which the food workers receive and store foods, how the foods are processed, and the temperatures at which they cook, hold and reheat the foods. Types of FSE's permitted and inspected by the CCHD include: restaurants, bakeries, schools, day care centers, harvest dinners, temporary food establishments, soft ice cream vendors, mobile food vehicles, pushcarts, taverns, vending machines, correctional facilities and caterers. The objective of such inspections is to prevent disease, assure a healthy and safe environment, and promote the highest quality of life. Based on media and general public interest, the CCHD has decided to use a rating system to provide the public with a general method of identifying the facility's relative compliance to the food code.

The CCHD uses an inspection sheet divided into red zone (critical) and blue zone violations. Red zone, or critical, violations are considered high risk factor violations that are known to cause food-borne illness. Blue zone violations are not as critical and involve establishment sanitation, design, and maintenance. Sanitarians performing inspections are New York State standardized Certified Food Service Inspection Officers.

Critical (Red Zone) Violations:

- **FOODS ADULTERATED OR RECEIVED FROM UNAPPROVED SOURCES**
- **FOODS NOT PROTECTED FROM CONTAMINATION, TEMPERATURES NOT MEASURED**
- **FOODS NOT PROTECTED FROM CONTAMINATION BY WORKERS**
- **FOODS NOT PROTECTED FROM CONTAMINATION BY OTHER SOURCES**
- **IMPROPER COOLING AND REFRIGERATED STORAGE OF POTENTIALLY HAZARDOUS FOODS**
- **IMPROPER HOT HOLDING OF POTENTIALLY HAZARDOUS FOODS**
- **INADEQUATE COOKING AND REHEATING OF POTENTIALLY HAZARDOUS FOODS**

Sanitation, Design and Maintenance (Blue Zone) Violations

- **FOOD NOT PROTECTED IN GENERAL**
- **POOR HYGIENE AND ACTIVITIES OF FOOD WORKERS**
- **POOR SANITARY DESIGN, CONSTRUCTION, INSTALLATION OF EQUIPMENT AND UTENSILS**
- **IMPROPER CLEANING, WASHING AND SANITIZING OF EQUIPMENT AND UTENSILS**
- **IMPROPER SANITARY FACILITIES AND CONTROLS**
- **IMPROPER GARBAGE AND RUBBISH DISPOSAL**
- **INADEQUATE INSECT/RODENT CONTROL**
- **IMPROPER CONSTRUCTION AND MAINTENANCE OF PHYSICAL FACILITIES**
- **MISCELLANEOUS, ECONOMIC VIOLATION, CHOKING POSTER, TRAINING**

It is important to note that the grade/rating represents a **snapshot** of the facility at the time of the inspection. The grade is used to place a value on compliance to the regulations, educate the operators, and encourage corrective action. The information available in these reports includes:

- Name and address of the FSE;
- Date of Inspection;
- Number of Red Zone (Critical) Violations Found;
- Number of Blue Zone Violations Found;
- A General “Letter Grade” Score for the inspection.

For each inspection completed, the CCHD has elected to calculate and list a simplistic letter grade (i.e., A, B, C, or D). Such letter grades are simply based on a compilation of the total number of red-zone and blue zone violations identified during the specific inspection.

If you would like to receive a copy of the full inspection report for a specific FSE, please contact the CCHD Environmental Health Unit (at 518-565-4870) for a Freedom of Information request. This form can be mailed to you. If you would like to meet with a staff person, you will need to schedule an appointment.
